

MiniRF

Passives with a Passion for Performance

MiniRF is a proven leader in supplying high performance surface mount RF passive components at competitive prices for existing and emerging Broadband/CATV and Wireless Communications Systems.

MiniRF components are used in many of the world's largest suppliers of communications products with nearly a billion units shipped.

Standard & Custom Components

COUPLERS

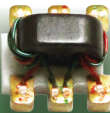

Small, low cost, and highly reliable surface mount couplers found in Broadband / CATV Communications

SPLITTERS

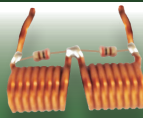

2.5 GHz BW, 2/3&4 way power splitters designed for both 50 & 75 ohm applications.

TRANSFORMERS

50 Ω & 75 Ω supporting a wide range of applications with impedance ratios of 1:1, 1:4, 1:8, 1:16.

RF CHOKES

Precision inductors & chokes with wire diameters from 0.060~5mm single & multilayer, air-core, coil configurations.
